GradSpace: A Dynamic Platform for Alumni-Student Connections

WEEKLY PROJECT REPORT 7
28/01/2025

PROJECT NAME:

GRAD-SPACE : A DYNAMIC PLATFORM FOR ALUMNI-STUDENT CONNECTIONS

PROJECT OVERVIEW:

GradSpace is a dynamic platform designed to connect students and alumni through meaningful interactions, fostering professional growth and community engagement. It offers features like an alumni social network, job portal, and project showcase to bridge the gap between education and career success. By enabling peer connections, event updates, and smart candidate filtering, GradSpace empowers users to take control of their future.It's a space where knowledge, opportunities, and relationships thrive, creating a supportive ecosystem for lifelong learning and collaboration.

ACCOMPLISHMENTS THIS WEEK:

As we planned for the week, we accomplished the following:

- Designed and developed an intuitive registration form, registration requests, pending requests, and registration rejection pages, along with an interactive onboarding process to collect users' basic data, work experience, and social links.

PLAN FOR NEXT WEEK:

- Create an admin dashboard that includes robust functionalities for user management, detailed user analytics, and efficient registration request handling.

NEXT WEEKLY REPORT DUE:

11/02/2025
